Code: DT01-PRIVATE

Valid until March 31<sup>st</sup> 2026

# About This Tour

Labuan Bajo is a fishing town located at the western end of the large island of Flores in the East Nusa Tenggara province of Indonesia. It is the capital of the West Manggarai Regency, one of the regencies on Flores Island.

The town is one of the gateways into the charm of Flores; you can reach it by direct flight from Malaysia, Jakarta, Surabaya, or Bali, or you can do it by ferry boat.

Why should you come to Labuan Bajo?

Because there are some good destinations to visit, such as Mirror Cave Stone, Puncak Waringin Hill, Amelia Sea View, Rangko Cave, several waterfalls, and Komodo National Park.

Komodo National Park is located in the center of the Indonesian archipelago, between the islands of Sumbawa and Flores. It's composed of some major islands (Komodo Island, Rinca Island, Padar Island, Gili Motang, and Nusakode Island), and there are some smaller islands.

# About This Tour

Exploring the Komodo National Park, you will have a good underwater experience with a thousand kinds of fish, such as manta rays, turtles, sharks, and others, and still have a chance to relax at some beautiful pink beaches with crystal seawater.

Take a moment to appreciate the panoramic views of the turquoise sea, dry or green rolling hills, blue sky, and the colors of the beach.

Komodo Island is inhabited by a population of flora and fauna, especially Komodo dragons.

The view of the blue sea and the surrounding small islands are just mesmerizing. Then you sail to one of the pink beaches (Long Pink Beach Padar or Pink Beach Komodo). ## ITINERARY DETAILS

- ✦ Komodo Island is the home of the unique and rare biggest lizard on earth, called the Komodo dragon. To explore the flora and fauna, there are three different treks: a short trek, a medium trek, and a long trek (regular trek), and you could also do an adventure trek (optional). On the island, you will explore and trek to find them out.
- ✦ Then you continue to Taka Makassar Reef. It's a tiny sand island in the middle of the ocean, which will submerge underwater when the sea level rises. It's a good place for relaxing and snorkeling in shallow water. This sand island is located very close to Manta Point. If you are lucky, you will be snorkeling with manta rays (they are 3–4 meters long).
- ✦ After snorkeling in Manta Point, you will go to the final spot to do snorkeling, called Siaba Island. In here, while you are snorkeling you will find turtles if you're lucky. Then, go back to Labuan Bajo.
