

# 5D/4N TREKKING-SNORKELING IN KOMODO NATIONAL PARK WITH LIVE ON BOARD

- CODE: STLOB5DLBR  
VALID: UNTIL MARCH 31st, 2026

# About This Tour

Komodo National Park is located in the center of the Indonesian archipelago, between the islands of Sumbawa and Flores. It's composed of some major islands (Komodo Island, Rinca Island, Padar Island, Gili Motang, and Nusakode), and there are some smaller islands. Exploring the Komodo National Park, you will have a good underwater experience with a thousand kinds of fish, manta rays, turtles, sharks, and others, and you will still have a chance to relax at some beautiful pink beaches with crystal seawater. Take a moment to appreciate the panoramic views of the turquoise sea, dry or green rolling hills, blue sky, and the colours of the beach. Komodo Island is inhabited by a population of flora and fauna, especially Komodo dragons. These 5 days and 4 night is the best choice for the travellers to enjoy staying overnight on the wooden boat and then exploring the whole beautiful park.

# Day 2 - Itinerary Details

- 📌 Morning call at 4.50 am. You are going to do trekking to the top of Padar Hill to hunt sunrise and enjoy the stunning three different bay views.
- 📌 Then you sail to one of the pink beaches. This exceptional beach gets its striking color from microscopic animals called Foraminifera, which produce a red pigment on the coral reef. You will relax and have fun swimming around this beach.
- 📌 Continue to Komodo Island to see the biggest lizard on earth. To explore the flora and fauna there, there are three different treks: a short trek, a medium trek, and a long trek (regular trek), and you could also do an adventure trek (optional).
- 📌 Then you sail to Taka Makassar Reef. It's a tiny sand island in the middle of the ocean, which will submerge underwater when the sea level rises. It's a good place for relaxing and snorkeling in shallow water. This sand island is located very close to Manta Point. If you are lucky, you will be snorkeling with manta rays (they are 3–4 meters long).
