# About This Tour

Komodo National Park is located in the center of the Indonesian archipelago, between the islands of Sumbawa and Flores. It's composed of some major islands (Komodo Island, Rinca Island, Padar Island, Gili Motang, and Nusakode), and there are some smaller islands. Exploring the Komodo National Park, you will have a good underwater experience with a thousand kinds of fish, manta rays, turtles, sharks, and others, and you will still have a chance to relax at some beautiful pink beaches with crystal seawater. Take a moment to appreciate the panoramic views of the turquoise sea, dry or green rolling hills, blue sky, and the colours of the beach. Komodo Island is inhabited by a population of flora and fauna, especially Komodo dragons. These 2 days and 1 night is the best choice for the travellers to enjoy staying overnight on the wooden boat and then exploring the whole beautiful park.
